503.GOOD, BETTER OR BEST? – BUILDING EXCELLENCE WITH A SIMULATION TOOL

DOUGLAS OLSON, BOB LANE, KATHRYN HYER, BOB SIEBEL, KIRSTIN DUNSWORTH & DENISE BOUDREAU-SCOTT

April 22, 2018

Learning Objectives

- Briefly share history, status of the draft simulation tool and share advantages of using a simulation tool to enhance learning & improve professional proficiency.
- Initial work has been done on domains and objectives

WE NEED YOUR INPUT TODAY

- 1. What would you have liked to know before you started your job?
- 2. Give us some examples of real life scenarios or situations you have been part of?

The Need

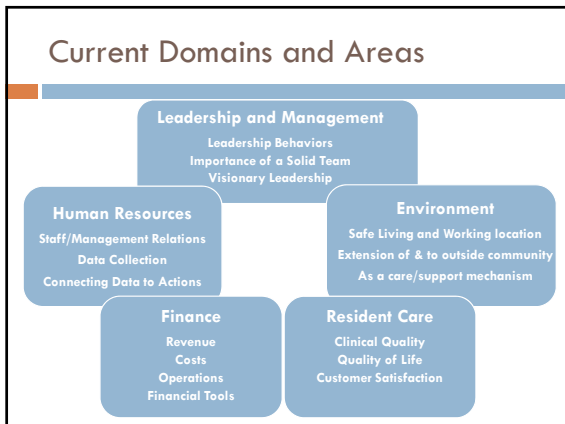

- There are approximately 50,000 senior care facilities in the U.S.
- There are few opportunities to “run the business” in a safe learning environment
- Administrators, managers, college students and others all can benefit from playing a business simulation game.
- Good pedagogical approach to learning

Experience

- Nursing Home Simulation
 - ACHCA led by Robert Siebel and others with grant support developed an experience used as an educational venue to both examine and reflect on the decision making skills of administrators. It was ahead of it's time for our field and used until it needed a major update based on the SNF environment.
- Top Gun
 - Vigilant, a provider of software for assisted living, had developed a Monte-Carlo simulator of an AL business, which was used with hundreds of participants. The simulator has been used for past 8 years with students at the UW-Eau Claire, and the license was transferred to CHAASE some 4 years ago.

BEST - Building Excellence with a Simulation Tool

- The initial team
- The purpose
- The plan
- The learning goals

We need your help today

- We have five facilitators that will move from table to table and get your ideas and feedback on a **couple of questions**
- Each facilitator will **focus on one of the domains**, and has the context of the area with them.
- You will have approximately 10 minutes with each of the five areas.

WE NEED YOU!

The questions

These are the two questions we want you to talk about...

- What would you have liked to know before you started your job?
- Give us some examples of real life scenarios or situations you have been part of?

Follow-up & Contact Information

- Please let us know if you are interested in staying in the loop.
