KEYNOTE PRESENTATION

Finding The Funny In Change

Jan McInnis

Monday, August 31, 2020 |

9:00-10:30 am

Whether it's going green or the myriad of new rules that govern the industry, we are constantly reacting to a new playing field. From reform to the new industry rules and regulations that are being developed, professionals are routinely having to reassess and re-evaluate their practices.

And all of this change causes fear, tension, and miscommunications!

This is Jan's most popular keynote, because she combines her hilarious comedy with PRACTICAL tips on dealing with change by using humor.

This would be the primary entry point for members wanting to engage in the Performance Improvement Program. Participants learn the tools and roadmaps to clean, define, and standardize processes. They would then be able to return to their home facility and undertake projects to systematically stabilize the operations of their organization; reducing operational noise, improving flows, creating a better resident environment, and reducing staff stress.
