#### RESCUE YOUR REVENUE AND IMPROVE ACCURACY

MDSRescue steps in remotely for facilities anywhere in the country. Subject matter experts ensure assessment completion conforms to regulations, is accurate and timely, which improves 5-Star ratings. MDSRescue alleviates the financial burdens of traditional hiring process, and reports MDS hours for Payroll-Based Journals when applicable.

#### REMOTE PRN SERVICE

- Flexible coverage
- Support during rise in caseload, staff vacations
- Avoid traditional hiring costs

#### SKILLED STAFF

- High level, qualified staff, many RAC-Certified nurses
- Continually educated to attain the most up-to-date information

## REVENUE INTEGRITY

 Maintaining quality documents supports compliance, contributing to peace of mind and payment retention

www.mdsrescue.com

3

## **Objectives**

- Discuss the FY24 CMS changes to revenue calibration
- · Explain the impact to the PDPM rates
- Illustrate increased Managed Care beneficiary penetration
- · Display the impact on revenue that Managed Medicare has
- Review the new quality measures in both SNFQRP and SNFVBP
- · Identify overlaps between the QM programs

# Reimbursement Changes for FY24

Rate Calibration

5

## **Parity Adjustment Delay FY22**

- Increase in aggregate spending of 5.3%
- Delayed for FY22, similar outcome to the 2012 reduction of 12.5%
- Due to an increase in CMIs from 2017 estimates to 2020 actual
- Estimated an increase of 1.46 (46%) actual increase higher, CMS proposing a reduction of CMIs to 37%
- Parity adjustment of \$1.7 billion proposed resulting in a 5% reduction to PPS rates over 2 years

# Table 13: Average Case-Mix Index, Expected and Actual, by PDPM Component

Component	Expected Average CMI (FY 2019 Estimate, Subject Population)	Actual CMI per Stay (Control, Period, Subset, Population)	Percentage Difference
PT	1.51	1.52	0.4%
ОТ	1.51	1.52	0.4%
SLP	1.40	1.66	18.6%
Nursing	1.45	1.60	10.8%
NTA	1.16	1.20	3.0%

7

#### **Base Rates FY 24**

#### TABLE 3: FY 2024 Unadjusted Federal Rate Per Diem—URBAN

Rate Component	PT	ОТ	SLP	Nursing	NTA	Non-Case-Mix
Per Diem Amount	\$70.08	\$65.23	\$26.16	\$122.15	\$92.16	\$109.39

#### TABLE 4: FY 2024 Unadjusted Federal Rate Per Diem—RURAL

Rate Component	PT	OT	SLP	Nursing	NTA	Non-Case-Mix	
Per Diem Amount	\$79.88	\$73.36	\$32.96	\$116.71	\$88.05	\$111.41

# High Risk Areas for Revenue Recoupment

- Diagnostic Assignment
  - · Primary and other
- Supportive documentation- Skilled services, no hospital stay
- Signatures and dates
- Coding
  - MDS
  - Claims

# Managed Care/Medicare Advantage

13

## **Medicare Advantage Is On the Rise**

- CMS is encouraging beneficiaries to enroll in managed care plans
  - · Marketing efforts increased for seniors, or those approaching
  - · More and more beneficiaries are choosing MA plans

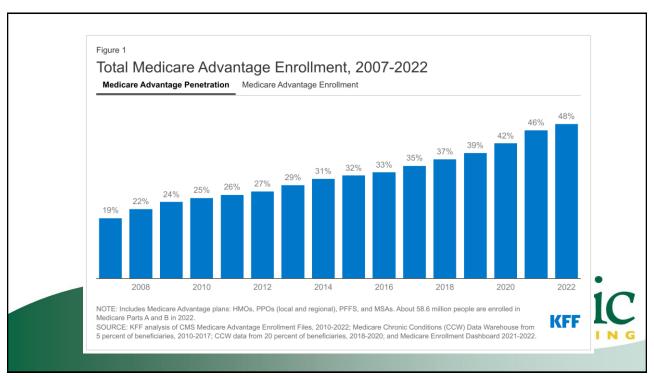

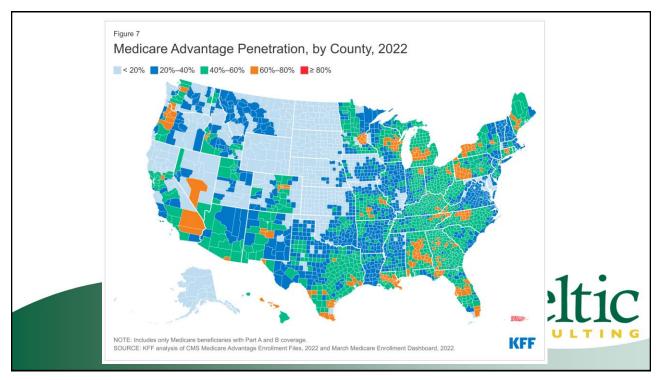

#### **MAO** Denials on the Rise

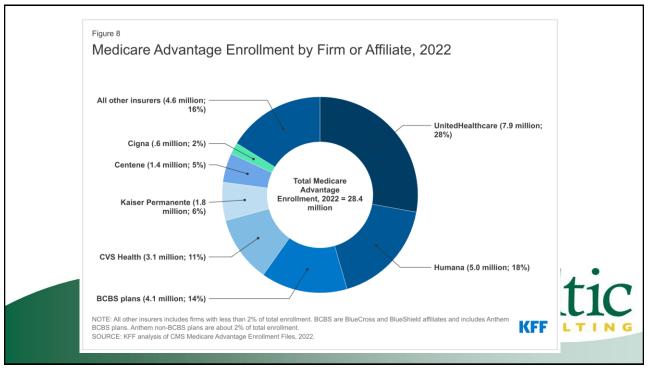

- Light needs to be shed on provider issues involving MA plan denials
  - Case managers 'choosing' PDPM scores and requiring MDSC to falsify MDS coding to match their PDPM scores
  - Misinterpretation of RAI guidelines to deny coding, assessment types, ARDs, completion dates, and submission dates
- Managed Care Final Rule published 4/12/23 addresses these issues!

Celtic

15

# Office of Evaluations and Inspections (OEI) 4/27/22 Report Finds Delays and Denials of Medicare Covered Services

- Medicare Advantage Organizations (MAO) are incentivized to deny beneficiaries access to care and deny payments to providers to increase profit margins
- CMS audits have revealed widespread and persistent problems related to inappropriate denials of service and payment

19

## What the Study Showed

- 250 cases of denied care and 250 payment denials by 15 of the largest MAOs were audited
- Claims review period (6/1/19-6/7/19)
  - Claims for services that meet Medicare coverage and regulatory guidelines were denied
  - Claims that met both Medicare and MAO billing regulations were denied
  - Additional administrative burden was created by the MAO that required the provider to perform 'extra steps'

CONSULTING

#### What the Study Showed

- 13% of denied prior authorization requests met coverage guidelines and would have been paid for under FFS Medicare
- 18% of denied payments met Medicare coverage regulations
  - MAOs payment systems were not updated causing system processing errors
  - Manual claims reviews "missing documents" included for review by the provider

21

#### **Common Causes Identified for Denials**

- MAOs using clinical criteria not contained in Medicare coverage rules
  - 'Making up their own rules'
- Denying based on 'lack of supportive documentation', which was included as part of the medical record
  - Medical necessity was clearly present, yet payment denied
  - · Not accepting the documentation provided

#### **OEI Recommendations to CMS**

- CMS to issue guidance to MA plans on appropriate use of clinical criteria to meet medical necessity
- MAOs to update protocols on auditing claims particularly for post acute facility stays, which had been one of the two top providers for denied care
- MAO to take additional step to identify and address the issues found in the report

23

## **MAO Changes effective 6/5/2023**

- Prior Authorization will be used only to confirm a diagnosis or other medical condition and once granted, will remain valid as long as medically necessary based on:
  - · Past medical history of resident
  - Recommendations of the treating physician

## **MAO Changes effective 6/5/2023**

- Coverage must be based on LCDs, NCDs and benefits included in traditional Medicare
  - If no LCD or NCD, may create internal coverage guidelines, which must be posted and publicly accessible
  - If coverage criteria is unspecified, the internal guidelines must be based on current evidence-based criteria
    - · Must be widely used treatment guidelines or clinical literature
  - Must provide evidence that was considered during the development of the internal criteria to make medical decisions

25

## **MAO Changes effective 6/5/2023**

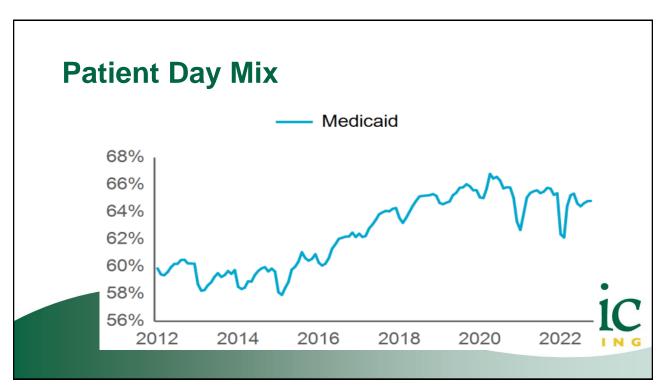

- Must establish a Utilization Review Committee to review all criteria annually to ensure the criteria remains consistent with coverage requirements
  - · Utilization management
  - Coverage criteria
  - Prior Authorization process
  - Policies
- Marketing to seniors will also be limited and waiting periods enforced

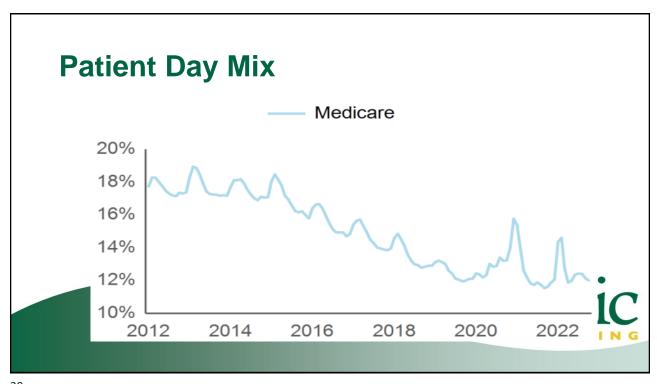

# Managed Care Impact on Revenue

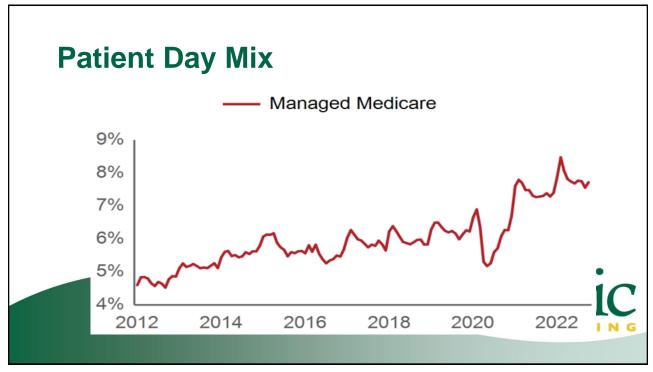

Rate Reduction Effects

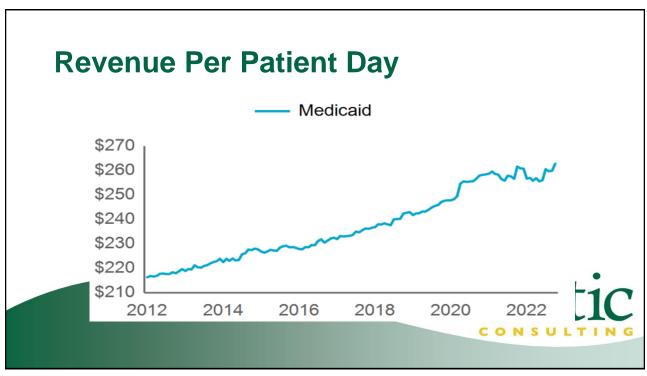

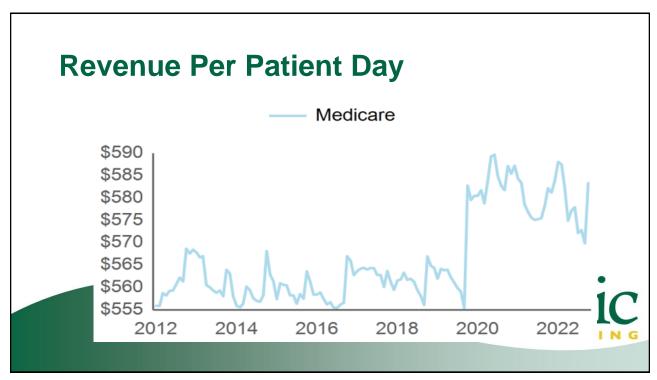

27

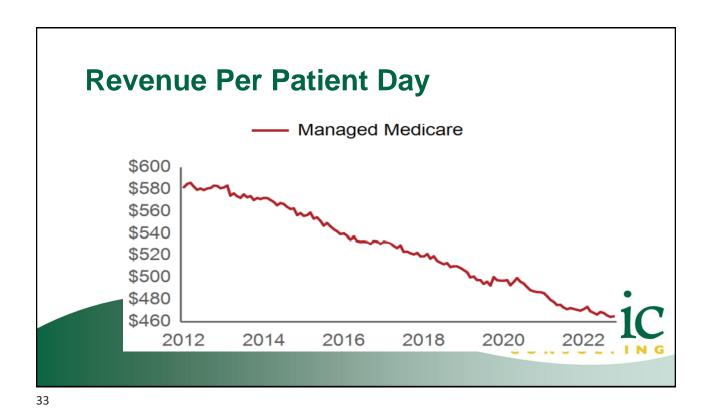

Average Reimbursement per Payer (through January 2023) \$124/\$119 (22)/\$101 (21)

Revenue Per Patient Day								
Medicaid	\$269	0.5%	\$256	0.2%	\$271	0.0%	\$270	0.7%
Medicare	\$592	-0.4%	\$589	0.0%	\$590	-0.1%	\$593	-0.5%
Managed Medicare	\$468	0.3%	\$431	0.3%	\$469	0.6%	\$472	0.3%
Private	\$321	1.3%	\$291	1.1%	\$303	1.8%	\$334	1.1%

CONSULTING

## **Best Practices for Billing Staff**

- Become familiar with CMS regulations for Medicare HMOs
- Understand the importance of developing a system of Case Management for SNF providers
- Identify Billing challenges and coverage for Medicare HMO and Insurance companies
- Keep track of percentage of MA denials

35

# 2023 Quality and Value: CMS Updates SNFVBP & SNFQRP

Measures Under Consideration

## **Current CMS Measurement Reporting**

- Reporting structure
  - o Quality measures
  - o CASPER reporting
  - o 5-star rating system
  - o PEPPER reports
  - o SNF Value Based Purchasing
  - o SNF Quality Reporting Program
- Medical record reviews (ADR) through the MAC/RAC or others

37

# **SNF Quality Reporting Program**

лл

# IMPACT Act & Quality Reporting Program

- The Improving Medicare Post-Acute Care Transformation (IMPACT) Act was passed by Congress in 2014 to improve the overall quality of healthcare across post-acute care settings
- As of October 2016, PAC providers must submit standardized assessments for data collection upon residents' admissions and discharges
  - 55.5 data points for SNFQRP
  - Failure to complete at least 80% of the MDS data points will result in a 2% reduction in Medicare Part A reimbursement
  - Threshold will increase to 90% for FY24

45

# Penalty Threshold for SNFQRP Assessments with 100% of the required MDS data elements Assessments submitted successfully before the submission deadlines\*

# **Data Points**

What is Being Collected

47

#### **QMs for SNF QRP Under IMPACT**

- 2016 MDS-Based Measures:
  - o Functional status and cognition changes from admit to d/c (10-1-16)
  - o Skin integrity and changes: \*added unstageable pressure ulcers 10-1-18
  - o Falls with major injury (10-1-16)
- 2017 Claims-Based Measures
  - MSPB-Medicare Spending per Beneficiary
  - Discharge to Community
  - Potentially Preventable Re-hospitalizations
- 2018 Additions
  - Medication reconciliation/Drug Regimen Review
  - Change in Self-Care Score for Medical Rehab Patients
  - o Change in Mobility Score for Medical Rehab Patients
  - o Discharge Self-Care Score for Medical Rehab Patients
  - Discharge Mobility Score for Medical Rehab Patients
- Care Plan- transfer of health info/med reconciliation (10-1-23)Delayed

#### **QRP MDS Measures FY 23**

Short Name	Measure Name & Data Source
Resident	Assessment Instrument Minimum Data Set (Assessment-Based)
Pressure Ulcer/Injury	Changes in Skin Integrity Post-Acute Care: Pressure Ulcer/Injury.
Application of Falls	Application of Percent of Residents Experiencing One or More Falls with Major Injury (Long Stay) (NQF #0674).
Application of Functional Assessment/Care Plan	Application of Percent of Long-Term Care Hospital (LTCH) Patients with an Admission and Discharge Functional Assessment and a Care Plan That Addresses Function (NQF #2631).
Change in Mobility Score	Application of IRF Functional Outcome Measure: Change in Mobility Score for Medical Rehabilitation Patients (NQF #2634).
Discharge Mobility Score	Application of IRF Functional Outcome Measure: Discharge Mobility Score for Medical Rehabilitation Patients (NQF #2636).
Change in Self-Care Score	Application of the IRF Functional Outcome Measure: Change in Self-Care Score for Medical Rehabilitation Patients (NQF #2633).
Discharge Self-Care Score	Application of IRF Functional Outcome Measure: Discharge Self-Care Score for Medical Rehabilitation Patients (NQF #2635).
DRR	Drug Regimen Review Conducted With Follow-Up for Identified Issues–Post Acute Care (PAC) Skilled Nursing Facility (SNF) Quality Reporting Program (QRP).
TOH-Provider*	Transfer of Health (TOH) Information to the Provider Post-Acute Care (PAC).
TOH-Patient*	Transfer of Health (TOH) Information to the Patient Post-Acute Care (PAC).

49

## **SPADE/TOH Delay in Reporting**

- Delay in the Compliance Date of the Transfer of Health Information Measures and Certain SPADEs Adopted for the SNF QRP
- CMS will require SNFs to begin collecting data on the two TOH Information Measures beginning with discharges on October 1st of the year that is at least 2 full fiscal years after the end of the COVID-19 PHE
- NPRM proposes, SNFs will be required to begin collecting data on these measures beginning with patients discharged on October 1, 2023, on the MDS 1.18.11.

**SPADES (Standardized Patient Assessment Data Elements)** 

## **QRP Claims Based Measures FY23**

	Claims-Based
MSPB SNF	Medicare Spending Per Beneficiary (MSPB)–Post Acute Care (PAC) Skilled
	Nursing Facility (SNF) Quality Reporting Program (QRP).
DTC	Discharge to Community (DTC)-Post Acute Care (PAC) Skilled Nursing Facility
	(SNF) Quality Reporting Program (QRP) (NQF #3481).
PPR	Potentially Preventable 30-Day Post-Discharge Readmission Measure for Skilled
	Nursing Facility (SNF) Quality Reporting Program (QRP).
SNF HAI	SNF Healthcare-Associated Infections (HAI) Requiring Hospitalization

CONSULTIN

51

## **QRP NHSN Measure**

000	HCP COVID-19 Vaccine	COVID-19 Vaccination Coverage among Healthcare Personnel (HCP)
		NHSN

#### **SPADES**

- Standardized Patient Assessment Data Elements
  - Assessment data elements standardized for all PAC Providers
- Expansion of 5 new SPADES for 10/1/23 MDS 1.18.11
  - Race, ethnicity, preferred language, health literacy, social isolation
  - Outcomes can be measured regarding Health Equity
- Data collected on Admission and Discharge Assessments

53

## **MUC for Future SNFQRP Updates**

TABLE 16: Future Measures and Measure Concepts Under Consideration for the SNF QRP

Quality Concepts

Cross-Setting Function

Health Equity Measures

PAC – COVID-19 Vaccination Coverage among Patients

#### Section GG Data Collection SNFQRP

- Admission Performance, 5-day PPS MDS
- Discharge Goal, 5-day PPS MDS
- Discharge Performance, DRA, DRNA or End of PPS Stay for planned discharges only
- Interim performance required for IPA completion
- 7 functional items for nursing function score (late loss ADLs)
- 11 items for PT/OT function score
- · Will be used for 5-star as Section G sunsets

55

#### **SNF QRP Claims-Based Measures**

#### Potentially Preventable Readmissions -

- Slight variation on the rehospitalization QM reported in Five Star
- Only Medicare Part A
- Time period = 1<sup>st</sup> 30 days following Discharge from SNF, excluding day of Discharge
- Measures readmission rates for those readmitted to a hospital or LTCH who have a principal diagnosis considered to be unplanned & <u>potentially preventable</u>.

#### **Exclusions to PPR**

- Discharge to another SNF/IRF/LTCH
- Residents who expire during their Medicare covered episode
- Discharges AMA (against medical advice)
- Acute care stay for cancer treatment or pregnancy
- Residents who exhaust their Medicare benefits
- Residents who were not Medicare beneficiaries for 12 months prior or 3 months after the stay
- Transfers to federal hospitals
- ESRD

57

#### **Most Common Reasons for Readmissions**

- 1. Inadequate management of chronic conditions
- 2. Inadequate management of infections
- 3. Inadequate management of other unplanned events
- 4. Inadequate injury prevention

\*multiple SNF admissions during a 12 month period will all count

## **SNF QRP Discharge to Community**

- Slight variation on the DC to community QM reported in Five Star
- Only Medicare Part A
- Time period = 31 days post discharge to community
- Measures SNF rate of successful discharge through no unplanned rehospitalizations nor death in the 31 days (includes day of discharge)
- Discharge status codes on the SNF claim are important here
  - Only these four codes are considered O1, 02, 81, 86 (82-planned d/c Acute)
  - Does your team communicate with finance on this?

59

# **SNF QRP Exclusions for Discharge to Community**

- Discharge to a psych hospital
- Discharge to Hospice facility, or community hospice
- Discharge to law enforcement
- Discharge AMA (against medical advice)
- Discharge to another SNF
- · Acute care stays for cancer treatment
- Planned discharges
- Benefits exhaust

# SNF QRP Medicare Spending per Beneficiary (MSPB)

- Also claims-based, Part A only but includes spending for both A&B
- CMS Goals for this measure include:
  - · Improve care coordination & efficiency of care
  - Facilitate comparisons while accounting for case mix
  - Create accountability amongst providers for quality & value by measuring resource use for an entire "episode" of care
- Calculates both Attributor Provider & other Provider services costs throughout the episode which begins on admit & for 30 days after discharge
- Episodes are only compared to other episodes of like providers

61

# **SNF QRP Medicare Spending per Beneficiary (MSPB)**

- Exclusions of Clinically unrelated services including:
  - Planned hospital admissions
  - · Routine management of certain preexisting chronic conditions
  - Some routine screening and health care maintenance
  - Immune modulating medications
- Beneficiary must have been enrolled in Medicare Part A for the entire 90-day period prior to admission date for episode & for entire episode window (Part A stay through 30 days from discharge.)
- Will have risk-adjustments r/t prior care/services, age, clinical categories, etc.

= 6.207

## **MSPB** Example

Observed Spending /

Expected Spending

Ratio of Obs/Exp

Episode 3 Episode 1 Episode 2 Episode 4 Episode 5 Episode 6 \$3,300 / \$4,890 / \$4,020 / \$6,850 / \$5,270 / \$5,460 / \$4,000 = \$4,100 = \$3,700 = \$6,200 = \$5,900 = \$5,000 = 0.825 1.193 1.086 + 0.850 1.161 1.092

Provider's Average Obs/Exp Ratio

MSPB PAC Amount (Provider's Average Obs/Exp Ratio \* National Avg Observed Spending)

Provider Score (MSPB PAC Amount/ National Median MSPB PAC Amount) 6.207 / 6 episodes = 1.035

National Average Observed Episode Spending = \$5,325

1.035 \* \$5,325 = \$5,509

National Median MSPB PAC Amount = \$5,700

\$5,509 / \$5,700 = 0.966

65

# **Newer Items/Data Points**

What is coming down the pike

#### **COVID Vaccinated HCP FY24**

- SNF PPS Final Rule FY 22 added 1 measure- HCP COVID19 Vaccine
- FY24 reporting SNFQRP data on this measure
- Data reported through NHSN by facility
- Must achieve 100% reporting threshold, not 80% like MDS items
- \*will be modified in FY25

67

#### HAI

- HAI-Infection acquired during SNF stay, or related to an invasive device, severe enough to require hospitalization
  - · Catheters, Lines
- Data updated once annually
- Claims based measure- hospital and SNF
- Principal Dx and Present on Admission (POA) determining factors
- Baseline year FY22 (10/1/21-9/30/22)

#### **HAI Criteria**

- Measures from day 4 of admission through day 3 post SNF discharge
  - · Includes deaths
- <u>Excludes</u>: LOS less than 4 days, non-PPS stays, no hospital stay, D/C to federal hospital, foreign hospital stay, missing data
- <u>Excluded Infections</u>: diagnosed at ER or in Observation stay, chronic infections, long acting/presenting diagnoses, related to prior hospital stay, sequela, secondary infections, community or animal acquired, acquired outside US, pre-existing (repeat) infections
- "In diseases classified elsewhere"

69

## **HAI Risk Adjustment**

- Age
- Sex
- Procedure in hospital
- Principal diagnosis/ HCC code
- LOS
- Number of hospital stays in 12 months
- ICU/CCU

# Future QRP Measures Approved By CMS

- Flu Vaccination HCP FY25
  - Measured 10/1-3/31, reported once annually
  - Utilize NHSN to report the data
  - HCP- all paid and unpaid, direct and indirect who worked at least 1 day
- Transfer of health information FY24 to begin with MDS 1.18.11
  - Delayed from 10/1/20 due to PHE, CMS proposing 10/1/23 start date
  - · Reconciled medication list transferred to patient, downstream provider
  - Collected on Discharge MDS

71

## **QRP Measures CMS Exploring**

- Cross-setting function FY25
  - Combine Self Care and Mobility measures into one functional measure
- Health Equity Measures (collect FY24 report FY26)
  - Disparities
- COVID Booster measure for Residents FY26
- CoreQ Pt Satisfaction Survey Results FY26
  - Rate the facility, Rate the staff, rate the care, whether discharge needs met
  - 1-5 Poor, Average, Good, Very Good, Excellent

## **Health Equity**

- Evidence that a treatment or outcome is affected by underlying healthcare disparities
- Considers Social Risk Factors (SFR)
- SPADES will be expanded 10/1/23 to add this information to MDS
  - Race, ethnicity, preferred language, transportation, health literacy, social isolation

73

#### **CoreQ FY26**

- Separate Vendor to perform the survey
- Discharges of 100 days or less in last 6 months
- Must answer within 2 months of receiving survey
- Exclusions: Expired, Discharged to another SNF, hospital, Psych hospital, IRF, LTCH, or AMA. Hospice, those with legal guardians or dementia

# **SNF Value Based Purchasing**

75

#### **SNF VBP**

Result of PAMA of 2014 enacted 4-1-14 under Social Security Act

- Focus of the program:
  - o Performance standards including 'achievement' and 'improvement' ratings
  - Rank SNFs for from low to high based on performance
  - $\circ\,2\%$  of PPS/Medicare payment withheld to fund program
  - o Incentive payments to providers must total 50-70% of amount withheld
  - o Incentive payments=buying your money back
- Both measures are based on hospital readmissions
  - SNF RM- all-cause/condition, original measure (began 1-1-17)
    - Payments affected as of 10/1/18
  - Transition to SNF PPR- potentially preventable

#### **SNFRM VBP Measure**

- Results in achievement rating score based on percentage of residents that were <u>not</u> readmitted during the window
- Compares value rating scores between providers
- How did you do in 2022 compared to all SNFs nationwide in 2019?
  - o If you did better than benchmarks (100 points, or 10 pts)
  - o If you did worse than achievement threshold (0 points)
  - o All facilities in between points assigned based on "Achievement Score"
- Second score "Improvement Score" based on how well your facility did in 2022 compared to your 2019 data
  - Above benchmark (90, or 9 points)
  - o If worse than 2019 (0 points)

77

## **SNFRM Improvement Rating**

**2022** your SNF

'Improvement' Rating up to 90, or 9 points

\_\_\_\_\_\_ **2019** your SNF

**<u>Better</u>** of the two, *Improvement* Rating or *Achievement* Rating

## **SNF VBP RM Achievement Rating**

**Benchmark:** Average top 10% performing SNFs in FY25 (83.028)

**2022** your SNF

Achievement Rating: SNF reaches 25% threshold (79.270)

**2019** ALL SNFs

- If your SNF meets the BENCHMARK, then your rating is 100 or 10.
- If your SNF doesn't meet at least the 25th percentile, then your rating is 0.
- Remainder will be disbursed, 1-100, or 1-10 when all measures are included.
- Rehospitalizations less than 20.73% for achievement score of 0.

79

#### **Performance Scores for FY25**

The lower the readmission rate, the better.

Since a lower readmission rate is better, CMS has inverted every SNF's readmission rate using (1 –readmission rate) for the purposes of the performance standards (i.e., benchmark and achievement threshold) and performance scoring.

<ul> <li>Standard</li> </ul>	2019
• 25th Percentile	20.73%
<ul> <li>Achievement Threshold</li> </ul>	79.270%
<ul> <li>Mean of the Best Decile</li> </ul>	16.972%
Benchmark	83.028%

# Performance Standards <u>FY25</u> baseline 2019

TABLE 18: Proposed Estimated FY 2025 SNF VBP Program Performance Standards

Measure ID	Measure Description	Achievement Threshold	Benchmark
SNFRM	SNF 30-Day All-Cause Readmission Measure (NQF #2510)	0.79270	0.83028

81

# Performance Standards <u>FY26</u> proposed

- Rebase to FY22 for baseline comparison
- Adjust point rating from 0-100 for **Achievement** Score to 0-10
- Adjust point rating from 0-90 for Improvement Score to 0-9

#### **Future Measures**

Measure Name	Measure Short Name	Measure Status	First Program Year	First Performance Period*		
SNF 30-Day All-Cause Readmission Measure	SNFRM	Adopted, implemented	FY 2017**	FY 2015		
SNF Healthcare-Associated Infections Requiring Hospitalization Measure	SNF HAI Measure	Adopted, not implemented	FY 2026	FY 2024		
Total Nurse Staffing Hours per Resident Day Measure	Total Nurse Staffing Measure	Adopted, not implemented	FY 2026	FY 2024		
Total Nursing Staff Turnover Measure	Nursing Staff Turnover Measure	Proposed	FY 2026+	FY 2024		
Discharge to Community – Post-Acute Care Measure for SNFs	DTC PAC SNF Measure	Adopted, not implemented	FY 2027	FY 2024 and FY 2025		
Percent of Residents Experiencing One or More Falls with Major Injury (Long-Stay) Measure	Falls with Major Injury (Long-Stay) Measure	Proposed	FY 2027 <sup>+</sup>	FY 2025		
Discharge Function Score for SNFs Measure	DC Function Measure	Proposed	FY 2027+	FY 2025		
Number of Hospitalizations per 1,000 Long Stay Resident Days Measure	Long Stay Hospitalization Measure	Proposed	FY 2027 <sup>+</sup>	FY 2025		
SNF Within-Stay Potentially Preventable Readmissions Measure	SNF WS PPR Measure	Proposed	FY 2028 <sup>+</sup>	FY 2025 and FY 2026
